

## **NFAF – Monday 2 September 2024**

### **Chair's Report**

There have been very few meetings during the last 3 months.

#### **Wetland Restoration.**

A visit took place to the South Bentley Inclosure on 15 07 2024.

(The area is not far from Cadman's Pool.)

Work has taken place there a few years ago. The earlier work was thought by the group participants to have improved the situation.

It was agreed that a little further work would be beneficial.

#### **Farming Protected Landscapes.**

Bids continue to be received and are being considered.
